

Coco Gothic is a contemporary geometric sans serif
in the footsteps of traditional grotesque typefaces
like Futura and Avantgarde.

The cold, geometric shapes typical of those
early modernism typefaces have been
made softer and more contemporary
by visual corrections and slightly rounded corners.

Its name comes from the nickname of
fashion beloved icon **Coco Chanel**.

ABOUT

Equipped with a rich array of historical variants,
Coco Gothic is also an encyclopedia of styles
from the last century, ready to transform itself
and adapt to the mood of your text.

It comes in six weights with matching italics
and features an extended character set
with open type support for small caps, ligatures, alternates,
European languages, Greek and Cyrillic alphabets.

"I DON'T DO FASHION.
I AM FASHION".
COCO CHANEL.
