

COCOMAT is a typeface variant from the **COCO GOTHIC** family of sans serif geometric typefaces.

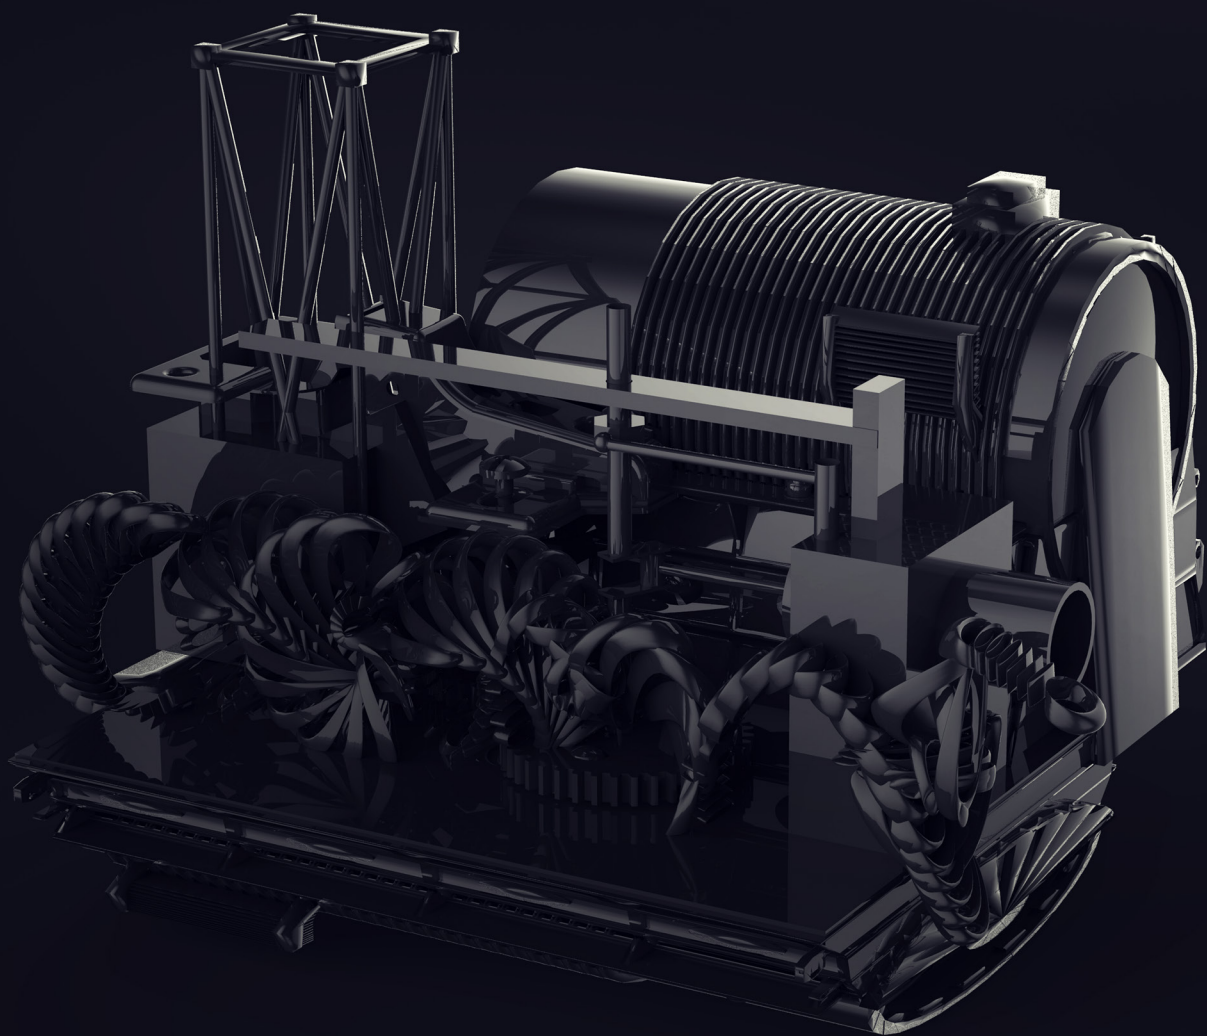

It's inspired by the style of the twenties and the visions of italian futurists like Fortunato Depero, Giacomo Balla and Sant'Elia.

ABOUT

It's a typeface about the future as imagined in a period of great faith in technology and progress.

It comes in five weights and features an extended character set with open type support for small caps, ligatures, European languages, Greek and Cyrillic alphabets.
